

THE ONLY OVD WITH **SORBITOL**
 — FREE RADICAL SCAVENGING

OPHTEIS® FR PRO
 THAT'S RADICAL THINKING

INTRODUCING OPHTEIS® FR PRO

We've put a lot of fresh thinking into our new Ophteis FR Pro. It's a unique bio-engineered Visco-Surgical Device (OVD) containing free radical scavenging sorbitol - designed to deliver a new level of corneal endothelial protection from phaco induced trauma.

SORBITOL = A POWERFUL
FREE RADICAL SCAVENGER

Containing sorbitol for unparalleled free radical scavenging

Sorbitol acts as an outstanding free radical scavenger, neutralising reactive oxygen species during surgery that causes damage to the endothelium. In fact, when compared to market leading OVDs, studies show that the use of **Rayner's Ophteis FR Pro reduces cell death by an average of 27.8%***.

*University of Brighton, UK, in vitro chemical and phaco free radical studies, data to be published.

The benefits of Rayner's Ophteis FR Pro:

PROTECTS...
the endothelium
throughout the
phaco procedure.

MAINTAINS...
the integrity of the anterior
chamber by increasing the
volume and space.

ENABLES...
the surgeon to easily
manipulate and move
tissue during surgery.

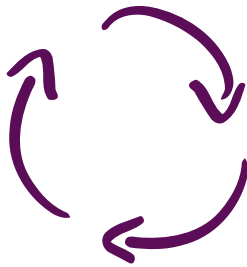

PROVIDES...
a new level of protection
and ease of use during
cataract surgery.

EVERYTHING YOU'D EXPECT FROM YOUR OVD AND MORE

A VISCOUS COHESIVE FOR A SAFE ENVIRONMENT

Through the bio-engineered composition of NaHA and sorbitol, Ophteis FR Pro is transformed into a viscous cohesive. It is stable in the anterior chamber during phaco, providing excellent chamber maintenance and is easy to remove at the end of surgery.

CONVENIENT AND EASY-TO-USE

Unlike many OVDs, Rayner's Ophteis FR Pro does not need to be refrigerated before use. With its stable rheology at room temperature you will enjoy consistent performance for every procedure.

ONE OVD FOR ALL STAGES OF CATARACT SURGERY

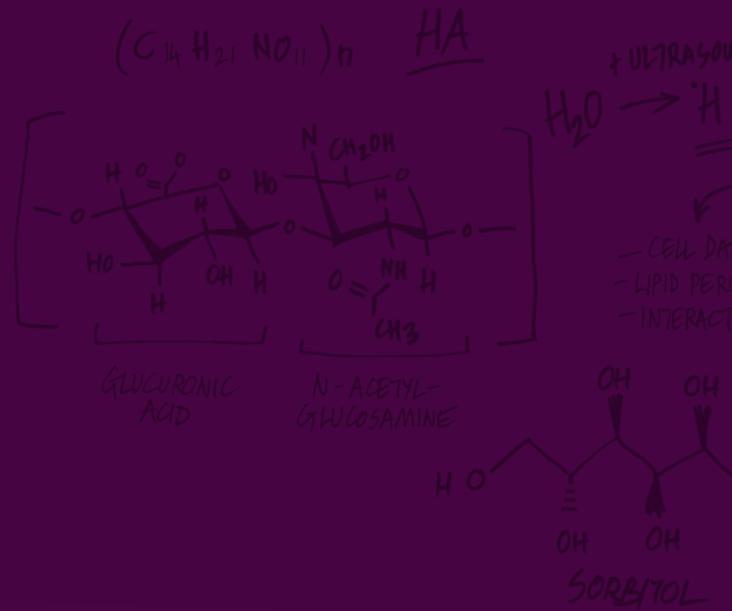

FR Pro is designed to protect the endothelium, provide excellent chamber maintenance and is fully validated with all Rayner IOL injectors. What's more, the extra volume 1.2 ml syringe gives you the confidence that Ophteis FR Pro will support all elements of your cataract procedure.

SEE THE DIFFERENCE PUT OUR THINKING TO THE TEST

We've done the thinking, the research and the testing. Now it's time for you to see the benefits of Ophteis FR Pro for yourself.
